

Wilby C.E. V.A. Primary School  
Year 4/5 Curriculum Map

Year A	Autumn 1	Autumn 2	Spring 1	Spring 2	Summer 1	Summer 2
	Mexico		Japan		Egypt	
<b>English</b>	Persuasive Writing Myths Poetry – Descriptive Recount - Newspaper		Instructions Poetry – Haiku Discussion / Argument		Play scripts Poetry – Concrete Letters Diaries	
<b>Maths</b>	<p><b>Place Value</b>                      Count in multiples of 6, 7, 9, 25 and 1000.                      Find 1000 more or less than a given number.                      Count forwards or backwards in steps of powers of 10 for any given number up to 1000000.                      Count backwards through zero to include negative numbers.                      Interpret negative numbers in context, count forwards and backwards with positive and negative whole numbers including through zero.                      Recognise the place value of each digit in a four digit number                      Order and compare numbers beyond 1000.                      Identify, represent and estimate numbers using different representations.                      Read, write, order and compare numbers to at least 1000000 and determine the value of each digit.                      Round any number to the nearest 10, 100 or 1000.                      Round any number up to 1000000 to the nearest 10, 100, 1000, 10000 and 100000                      Solve number and practical problems that involve all of the above and with increasingly large positive numbers.                      Solve number problems and practical problems that involve all of the above.                      Read Roman numerals to 100 (I to C) and know that over time, the numeral system changed to include the concept of zero and place value.                      Read Roman numerals to 1000 (M) and recognise years written in Roman numerals.                      Know and use the vocabulary of prime numbers, prime factors and composite (non-prime) numbers.                      Establish whether a number</p> <p><b>Addition and Subtraction</b>                      Add and subtract numbers mentally with increasingly large numbers.                      Add and subtract numbers with up to 4 digits using the formal written methods of columnar addition and subtraction where appropriate.</p>		<p><b>Fractions</b>                      Recognise and show, using diagrams, families of common equivalent fractions.                      Identify, name and write equivalent fractions of a given fraction, represented visually including tenths and hundredths.                      Compare and order fractions whose denominators are multiples of the same number.                      Solve problems involving increasingly harder fractions to calculate quantities, and fractions to divide quantities, including non-unit fractions where the answer is a whole number.                      Solve problems involving multiplication and division, including scaling by simple fractions and problems involving simple rates.                      Add and subtract fractions with the same denominator.                      Add and subtract fractions with the same denominator and denominators that are multiples of the same number.                      Recognise mixed numbers and improper fractions and convert from one form to the other and write mathematical statements <math>&gt;1</math> as a mixed number [for example <math>25 + 45 = 65 = 1\ 15</math> ]                      Multiply proper fractions and mixed numbers by whole numbers, supported by materials and diagrams.</p> <p><b>Decimals and Percentages</b>                      Recognise and write decimal equivalents of any number of tenths or hundredths.                      Recognise and write decimal equivalents to <math>\frac{1}{4}</math>, <math>\frac{1}{2}</math>, <math>\frac{3}{4}</math>                      Read and write decimal numbers as fractions [ eg <math>0.71 = \frac{71}{100}</math> ]                      Recognise and use thousandths and relate them to tenths, hundredths and decimal equivalents.                      Count up and down in hundredths; recognise that hundredths arise when dividing an object by one hundred and dividing tenths by ten.                      Find the effect of dividing a one or two digit number by 10 or 100, identifying the value of the digits in the answer as ones, tenths and hundredths                      Multiply and divide whole numbers and those involving decimals by 10, 100 and 1000.</p>		<p><b>Time</b>                      Convert between different units of measure eg hour to minute.                      Read, write &amp; convert time between analogue and digital 12 and 14 hour clocks.                      Solve problems involving converting from hours to minutes; minutes to seconds; years to months; weeks to days                      Solve problems involving converting between units of time.</p> <p><b>Statistics</b>                      Interpret and present discrete and continuous data using appropriate graphical methods, including bar charts and time graphs.                      Complete, read and interpret information in tables including timetables.                      Solve comparison, sum and difference problems using information presented in bar charts, pictograms, tables and other graphs.                      Solve comparison, sum and difference problems using information presented in a line graph.</p> <p><b>Angles</b>                      Identify acute and obtuse angles and compare and order angles up to two right angles by size.                      Know angles are measured in degrees: estimate and compare acute, obtuse and reflex angles.                      Draw given angles, and measure them in degrees (o)                      Identify: angles at a point and one whole turn (total 360o), angles at a point on a straight line and <math>\frac{1}{2}</math> a turn (total 180o) other multiples of 90o</p> <p><b>Area</b>                      Find the area of rectilinear shapes by counting squares. Calculate and compare the area of rectangles (including squares), and including using standard units, cm<sup>2</sup>,m<sup>2</sup> estimate the area of irregular shapes.</p> <p><b>Shape and Symmetry</b>                      Compare and classify geometric shapes, including quadrilaterals and triangles, based on their properties and sizes.                      Distinguish between regular and irregular polygons based on reasoning about equal sides and angles.                      Use the properties of rectangles to deduce related facts and find missing lengths and angles.                      Identify lines of symmetry in 2D shapes presented in different orientations.                      Complete an simple symmetric figure with respect to a specific line of symmetry.</p>	

	<p>Add and subtract whole numbers with more than 4 digits, including using formal written methods (columnar addition and subtraction)</p> <p>Estimate and use inverse operations to check answers to a calculation.</p> <p>Use rounding to check answers to calculations and determine, in the context of a problem, levels of accuracy.</p> <p>Solve addition and subtraction two step problems in contexts, deciding which operations and methods to use and why.</p> <p>Solve addition and subtraction multi-step problems in contexts deciding which operations and methods to use and why.</p> <p><b>Multiplication and Division</b></p> <p>Recall and use multiplication and division facts for multiplication tables up to 12 x 12.</p> <p>Use place value, known and derived facts to multiply and divide mentally, including: multiplying by 0 and 1; dividing by 1; multiplying together three numbers.</p> <p>Multiply and divide numbers mentally drawing upon known facts.</p> <p>Multiply and divide whole numbers by 10, 100 and 1000.</p> <p>Recognise and use factor pairs and commutativity in mental calculations.</p> <p>Identify multiples and factors, including finding all factor pairs of a number, and common factors of two numbers.</p> <p>Multiply two digit and three digit numbers by a one digit number using formal written layout.</p> <p>Multiply numbers up to 4 digits by a one or two digit number using a formal written method, including long multiplication for 2 digit numbers.</p> <p>Divide numbers up to 4 digits by a one digit number using the formal written method of short division and interpret remainders appropriately for the context.</p> <p>Recognise and use square numbers and cube numbers and the notation for squared (2) and cubed (3)</p> <p>Solve problems involving multiplying and adding, including using the distributive law to multiply two digit numbers by one digit, integer scaling problems and harder correspondence problems such as n objects are connected to m objects.</p> <p>Solve problems involving multiplication and division including using their knowledge of factors and multiples, squares and cubes.</p> <p>Solve problems involving addition and subtraction, multiplication and division and a combination of these, including understanding the use of the equals sign.</p> <p><b>Perimeter</b></p> <p>Convert between different units of measure eg kilometre to metre.</p> <p>Convert between different units of metric measure (for example, km and m; cm and m; cm and mm)</p>	<p>Round decimals with one decimal place to the nearest whole number.</p> <p>Round decimals with two decimal places to the nearest whole number and to one decimal place.</p> <p>Compare numbers with the same number of decimal places up to two decimal places.</p> <p>Read, write, order and compare numbers with up to three decimal places.</p> <p>Solve problems involving number up to three decimal places.</p> <p>Recognise the per cent symbol (%) and understand that per cent relates to 'number of parts per hundred', and write percentages as a fraction with denominator 100, and as a decimal.</p> <p>Solve problems which require knowing percentage and decimal equivalents of <math>\frac{1}{2}</math>, <math>\frac{1}{4}</math>, <math>\frac{1}{5}</math>, <math>\frac{2}{5}</math>, <math>\frac{4}{5}</math> and those fractions with a denominator of a multiple of 10 or 25.</p> <p><b>Measurement</b></p> <p>Solve simple measure and money problems involving fractions and decimals to two decimal places.</p> <p>Estimate, compare and calculate different measures, including money in pounds and pence.</p> <p>Use all four operations to solve problems involving measure [for example, length, mass, volume, money] using decimal notation, including scaling.</p>	<p>Identify 3D shapes, including cubes and other cuboids, from 2D representations.</p> <p>Estimate volume [for example using 1cm<sup>3</sup> blocks to build cuboids (including cubes)] and capacity [for example, using water]</p> <p><b>Position and Direction</b></p> <p>Describe positions on a 2D grid as coordinates in the first quadrant.</p> <p>Describe movements between positions as translations of a given unit to the left/ right and up/ down.</p> <p>Plot specified points and draw sides to complete a given polygon.</p> <p>Identify, describe and represent the position of a shape following a reflection or translation, using the appropriate language, and know that the shape has not changed.</p>
--	--	--	---

	Measure and calculate the perimeter of a rectilinear figure (including squares) in cm and m Measure and calculate the perimeter of composite rectilinear shapes in cm and m.
